Thank you for sending your questionnaire about my positions that is of interest to you. I have limited my responses of PAC questions for several reasons.

1. I have served in the Legislature four sessions and have established a voting record on a large variety of issues. While I would appreciate the support from people in your organization. My values are expressed in my voting record and platform. I will remain consistent to those values, as the people who are supporting my candidacy already know my beliefs.
2. Some questionnaires polarize positions on issues that do not encourage dialog and finding common ground, which might be possible. Many times the extreme points of view asked in a questionnaire are never brought up or discussed in the Legislature.
3. I have a Representative Advisory Council so people in Senate District 12 will be able to give me input as various bills are introduced in the legislature.
4. I was Majority Leader in the House of Representatives; my leadership style was aimed at bringing people together on issues with cooperation and not hostility. I believe surveys prevent that from happening of a wide variety of issues.

I am unopposed in the Republican primary election. I will work hard to win the general election in Senate District 12 that has always had a Republican serve it. If I am successful, I will be happy to sit down with your organization and discuss those issues that are important to you.

Thanks for your interest.

Keith King

I have a perfect pro life record!
